

# NEBULIZERS

The WestAir is a beautifully designed, professional scenting device that uniquely diffuses essential oils in any business environment, in order to enhance emotions, influence consumer behavior and employee mood.

Unlike traditional diffusers, the WestAir is engineered to atomize the essential oils into micron size particles for longer-lasting, consistent fragrance, greater efficiency, maximum fragrance dispersion, and enhanced aromathereapy benefits.

## Product Name: WestAir Nebulizer

*Each (Available in Black or White)*
